

Doctors Appointment

You are visiting your Doctor today to have your annual medical review appointment (health check).

Your Doctor will chat to you about your health. They may weigh you & listen to your chest. They also may take some bloods to do some further tests.

A staff member will be with you if you need any help during your visit. Your Doctor is happy to answer any questions you might have.

We look forward to seeing you later at your Doctor's office.
